

**DETAILED ACTION**

***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: The prior art taken singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper.

In regard to independent claim 8, the prior art taken either singly or in combination fails to anticipate or fairly suggest a fundus camera with the particular at least four lens structure with the disclosed manner of tilt required for two sets of two lenses; recited together in combination with the totality of particular features/limitations recited therein. For further reasons for allowance, specifically over the prior art of record, see the applicant's remarks filed 8/25/2008.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Cited Prior Art***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- a. Kobayashi (USPAT 5,430,509) is cited to show an imaging device in the art.
